DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
2. Claims 2, 3 are indefinite because the claims are drawn to "the base", but there are two bases in the independent claim. There is a moveable base (in paragraph (d)) and a base on the needle hub (in paragraph (e)).
3. Claim 1 has a lack of antecedent basis issue with regards to the needle hub in paragraph (b).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Caselli (USPN 5,201,710).

Caselli discloses an interchangeable needle (19), an elongated barrel, a movable base (12), a spring (21) and at least one support member (24). (Figures 3-9 and entire reference)

6. Claim 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pressly, Sr. et al. (USPN 5,613,952).

Pressly, Sr. et al. discloses an interchangeable needle, an elongated barrel, a movable base (11), a spring and at least one support member (31), as well as a retainer catches, and an integral sacrificial seal on the base. (Figures 1-26 and entire reference)

Pressly, Sr. et al. also discloses a method of operating of the syringe as well as a method of producing the product. (Figures 1-26 and entire reference)

Allowable Subject Matter

7. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 2-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claims 15, 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Claims 9-12 are in condition for allowance.

Response to Arguments

11. Applicant's arguments filed 2/7/05 have been fully considered but they are not persuasive with regards to claim 13.

12. The applicant sets forth no arguments with regard to claim 13 and therefore the examiner keeps his rejection in view of the prior art.

Conclusion

13. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
